VOLUME EIGHT

AS WE SEE IT

We seldom walked evenly over this rough trail.
There was a time we thought it easy, only a
September picnic to watch the others climb.
But we looked at those approaching their journey's end,
And we knew we would be as tired as they.
Still we walked further on a path that, though
Others walked before us, and still more after
Our departing, would never be worn smooth.
We worried little of falling, knowing there were hands
To help the weary, stumbling climbers. Times came
When the way looked too pitted and eroded
To be crossed, but a glance at those who made
The climb was always reassuring to us. Now we
Stand at the crest of a summer hill, and feel
Learned in the ways of walking. We thank others
For their friendship on our climb, and we speak
Of walking different trails. We think this trail
Is beautiful, as we see it, and walk on.

When we came to MHS as freshmen, little did we know what was ahead of us. We stumbled and plunged through four years of hard work. Now that it is all behind us we look back with happiness and sorrow on the things we accomplished and the things we left undone. But looking back, we will never be able to forget all the time and effort which Mr. Geltrude and Miss Barrett put into making our class a success, and to these people we owe an endless debt of gratitude.

PETER DOMINSKI, Treasurer

When you are old and gray and full of sleep,

Your eyes had once, and of their shadows deep.

A Message to the Class of 1971:

It is important that a man dream—that he conceive in his mind and imagination a new dimension to which he will make reality conform.

It is more important that the dreams he envisions should test the limits of his present powers and abilities; for such is the essence of dreams.

The voyage of Columbus was a dream—a wild dream that opened the route to an entirely new world and the start of a new way of living. The settlers of Jamestown were motivated by the age old dream of gold. Plymouth was inspired by religious dream.

The colonists who put their trust in George Washington and a rag-tag army had a dream and won; the Tories who put their trust in George III and the mightiest army of the 18th Century world had a dream and lost.

Benjamin Franklin had a host of dreams—many of them were realized and some of them became the bases of present comforts and services. Andrew Jackson had a dream for the common man; Wilbur and Orville Wright had a fantastic dream. Flying today has become an experience that is marvelous but common place and no longer a dream.

Jonas Salk had a dream and mothers everywhere blessed him; Martin Luther King had a dream and a race followed him; John F. Kennedy had a dream and a nation mourned him; Neil Armstrong had a dream and mankind watched him take a step for mankind.

Perhaps the most important political dream that has affected you and me was beautifully expressed in the 18th Century. The dream was bold, daring, exciting, upsetting, challenging. It was so beyond the imagination of most men that it still remains a dream today and our country and the world waits for its fulfillment.

"We hold these truths to be self-evident:

—that all men are created equal

—that all men are endowed by their creator with certain unalienable rights

—that among these are life, liberty, and the pursuit of happiness."

Presently, Seniors, you are completing a most important phase of your life. For some this will mark the end of your formal education; for others this will begin a new educational experience, but for all of you it will mean a deepening and maturing of increased responsibility.

Unfortunately, this commencement comes at a time of crisis in our country and in our society. Fundamental in this crisis is the testing of our great political dream—the dignity of the human personality.

It is my prayerful hope that you, our graduating seniors, will contribute generously to sustaining and fulfilling this dream through your honest attitudes, your honest effort, and your honest example and that the theme you have chosen for the SPECTRUM, "As We See It," may one day become—because of your magnificent dreaming—"As We Fashioned It!"

My best wishes and congratulations to each of you—graduates of the class of 1971.

EDITORS' AFTERWORD

What have our four years at Memorial given us? Have they given some of us a purpose in life? Have the faculty and administration given us insight into the world we will independently encounter? These are two questions both educators and students must ask of themselves and of each other.

Perhaps we should consider something less encompassing and profound — the individuals we have known; people with whom we worked and played, argued and debated, studied and relaxed, competed and cooperated, shared victories and defeats; people with whom we lived.

Perhaps we should consider this now, or perhaps later.

As we see it,

Dear Lois,

I hope you weren't saving this part for someone else but too bad (just kidding of course) I just wanted to say that we've had a great year toge and that the next two are better. Do you realize that we're been friends since 1st grade? That a long time you know! Remember Mrs. Hovell? And Mary Poppins? (How could you forget?) The Cherry Blossom Club? Parties and spending the night at your house? I'm so glad you joined the pool so we'll see each other alot. (Good luc with your-know-who) We were in each others classes much this year but maybe next year will make up for it. Good luck in cheerleading next year I know you'll be great! (as alwa Well I'm running out of things to say so Good luck always in every- thing. Lots of Love, Vicki

Dear Lois,

I'm really glad we got to be such good friends this year. Never forget all the good times we had doing the "Charleston". Next year I'll be looking forward to cheerleading with you.

Love,
Sue

Dear Lois,
Have a great summer. Always remember spotlights cheerleading.

Dear Lois,
Have a great summer. Always remember spotlights, cheerleading, gym classes.
You are a great kid good luck in cheerleading.
Always remember "Nice Girls Gotta Be Bitter".

Eileen

Dear Lois,

Bonjour! Bon Noël! Bonne Nouvelle Année! Bonne Fête! Joyeaux Pacques! Bon Poison d'avril! That's enough for now, I think. Well, I think it's been a good year. What can be more fun than 1260 periods of biology with Mrs. Kehr? And 1260 periods with Mr. Nagel? (a little more bearable since half of them were studies). And we can't forget your good friend Mrs. Markey. I think I've said enough. Never forget the real fun we had visiting Luann. You've been a great cheerleader, and next year you're co-captain (of course cheerleaders are nothin' compared to color guard cough cough). Well, you're not rid of me yet - 2 more years at M.H.S. to go. I know they'll be happy ones too. Good luck, and I'll see you this summer. Never forget that $E = mc^2$.

Love,
Judy

Lois,
Never forget everything!
(How's that for being explicit?)
I love ya,
Good Luck in your life
Eileen
PS- I think I failed my French exam!
